Guide for Respondents

Comments are requested by **July 24, 2025**.

This template is for providing comments on the Exposure Draft (ED) of proposed Narrow-Scope Amendments to International Auditing and Assurance Standards Board® (IAASB®) Standards Arising from the International Ethics Standards Board for Accountants' (IESBA) Using the Work of an External Expert project, in response to the questions set out in the Explanatory Memorandum (EM) to the ED. It also allows for respondent details, demographics and other comments to be provided. Use of the template will facilitate the IAASB's automated collation of the responses.

You may respond to all questions or only selected questions.

To assist our consideration of your comments, please:

- For each question, start by indicating your overall response using the drop-down menu under each question. Then below that include any detailed comments, as indicated.
- When providing comments:
 - Respond directly to the questions.
 - Provide the rationale for your answers. If you disagree with the proposals in the ED, please provide specific reasons for your disagreement and specific suggestions for changes that may be needed to the requirements, application material or appendices. If you agree with the proposals, it will be helpful for the IAASB to be made aware of this view.
 - Identify the specific aspects of the ED that your response relates to, for example, by reference to sections, headings or specific paragraphs in the ED.
 - Avoid inserting tables or text boxes in the template when providing your responses to the questions because this will complicate the automated collation of the responses.
- Submit your comments, using the response template only, without a covering letter or any summary of your key issues, instead identify any key issues, as far as possible, in your responses to the questions.

The response template provides the opportunity to provide details about your organization and, should you choose to do so, any other matters not raised in specific questions that you wish to place on the public record. All responses will be considered a matter of public record and will ultimately be posted on the IAASB website.

Use the “**Submit Comment**” button on the ED [web page](#) to upload the completed template.

Overall Question

Public Interest Responsiveness

1. Do you agree that the proposed narrow-scope amendments are responsive to the public interest, considering the qualitative standard-setting characteristics and standard-setting actions in the project proposal? If not, why not?

Proposed Narrow-Scope Amendments to ISA 620¹

(See EM, Section 1-C)

Overall response: Agree, with comments below

Detailed comments (if any):

We recommend targeted amendments to ISA 620 in response to paragraphs 390.19 and 390.20 of the IESBA Code. Paragraph A17 of ISA 620, which provides guidance on when the auditor may need to reconsider the initial evaluation of the competence, capabilities and objectivity of the auditor's expert as the audit progresses, may be a suitable place to include a reference for further evaluation required by the aforementioned IESBA Code paragraphs.

If you do not agree, what alternatives do you suggest (please identify the specific paragraphs and be specific as to why you believe the proposals are not appropriate, and why you believe your alternatives would be more appropriate)?

Detailed comments (if any):

¹ International Standard on Auditing (ISA) 620, *Using the Work of an Auditor's Expert*

Proposed Narrow-Scope Amendments to ISRE 2400 (Revised),² ISAE 3000 (Revised)³ and ISRS 4400 (Revised)⁴

3.1 Do you agree that the proposed narrow-scope amendments to ISRE 2400 (Revised) are consistent with the proposed amendments to ISA 620, and are appropriate to maintain interoperability with the new provisions in the Code related to using the work of an external expert?

IAASB to consider whether the amendments should also be included in ISRE 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*.

Implementation support and guidance

One of the key concerns relates to the ability of professional accountants to obtain the relevant information from external experts (such as details on financial interests, relationships, independence and other ethical considerations) as required by the IESBA Code.

While professional accountants are required to comply with the IESBA Code, external experts may not be subjected to the same requirements. This creates a potential gap that needs to be addressed to ensure compliance. As such, stakeholder engagement is crucial to support professional accountants in obtaining the necessary information from external experts. To support effective implementation, the IAASB and IESBA can play a key role in increasing outreach to the external expert community to raise awareness of the expectations placed on professional accountants and the types of information needed from them to comply with the requirements.

Guidance on practical steps PAs can reasonably take to meet the requirements, including how the auditors can practically obtain information about financial interests or relationships from external experts in writing would be helpful. One area that could benefit from clarification is whether documentation in the engagement letter would be sufficient.

Part C: Request for General Comments

The IAASB is also seeking comments on the matters set out below:

5. Translations—Recognizing that many respondents may intend to translate the final narrow-scope amendments for adoption in their own environments, the IAASB welcomes comment on potential translation issues respondents note in reviewing the ED.

Overall response: No response

Detailed comments (if any):

6. Effective Date—Given the public interest benefit of aligning the effective date of these proposed narrow-scope amendments with the effective date of the revised Code provisions related to using the work of an external expert, the IAASB believes that an appropriate implementation period would be approximately 12 months after the PIOB’s process of certification of the final narrow-scope amendments. The IAASB welcomes comments on whether this would provide a sufficient period to support effective implementation of the narrow-scope amendments.
