# **Accountancy Future Leaders Programme**

Unleash your Leadership Potential

#### **III ISCA and SAC** Partnership

Accountancy Future Leaders Programme is a six-month programme developed by the Institute of Singapore Chartered Accountants (ISCA) in partnership with the Singapore Accountancy Commission (SAC). The programme aims to gear up future Accountancy sector leaders with leadership capabilities, market insights and business growth strategies.

## **// About** the Programme

In this age of digitalisation, global interdependence and complexity, professional services firms face diverse opportunities and challenges. The leadership of a public accounting firm is one of the most important drivers to raise the quality of the firm's work and seize opportunities in this competitive and disruptive market.

This programme provides a structured and formalised professional development pathway aimed at developing selected individuals of accounting firms, in particular the Small and Medium Practices (SMPs), in leadership capabilities which is essential for succession planning. It also aims to improve the competitiveness of SMPs, provide tactical and practical assistance to enhance the quality of SMP services and showcase best practices.

## **// Programme Content** and Structure

The programme consists of four core components -

#### E-Learning

Participants are required to complete a pre-course reading which consists of three online modules covering topics -(i) practice leadership

- (ii) business advisory success (iii) marketing fundamentals

The duration of each module is about 1.0 - 2.0 hours.

#### Facilitated Workshops

A 3.5-day workshop covering topics –

- (i) change leadership
- (ii) business strategy (iii) people strategy
- (iv) technology strategy
- Case studies on leadership and SMP practice management will be

tailored for discussion.

## Project Work with

The practical portion of

the Programme requires participants to pre-select one of three topics -(i) business strategy; (ii) people strategy; or (iii) technology strategy and embark on project

work with coaching.

Qualified consultants will be assigned to facilitate the completion and delivery of the participants' project work.

#### Leadership Talk

The Programme will also bring in industry leaders to conduct leadership talk on innovative business models, and to offer perspectives of what makes for sound practice management leadership.

## **// Target** Participants

professional accountants working in accounting firms, in particular SMPs, specifically high potential leaders (minimally one level below Partner) identified by the managing partner, or

middle to senior level officers with a minimum of 10 years of professional experience.
