

Learning Support

Below is a list of learning support available to ISCA Accredited Accounting Technician (ISCA-AAT) students on the [MyAAT portal](#):

- **E-learning, Key Calculations and Real life Scenarios:** These are designed to enhance students' understanding and give them a chance to test their skills. The modules include interactive tutorials, worksheets and animations focusing on a key topic.
- **Sample Assessments:** Students can familiarise themselves with content type and question structures and try example assessment questions to practise their technique.
- **Green Light Test:** Students can judge how well they understand their learning areas and identify where they need to put in some more work. The tests also give students an idea of whether they are ready for the assessment.

The learning materials for 2 modules developed by ISCA - Information Technology for Accountants and Principles of Singapore Law and Tax, will be distributed to students by the [appointed training providers](#).

The log in ID and password will be given to students upon application approval. Students are only required to log in to MyAAT portal to access the listed learning support. Other information available in the MyAAT portal will **NOT** be applicable to ISCA-AAT students due to the customisation of ISCA-AAT qualification.

Please find below the steps to access the listed learning support.

1. Log in to [MyAAT Portal](#)
2. Click on *Access your study support* located in the centre of the screen.

Online resources Documents and downloads

Sample assessments, e-learning, Green Light tests and guidance

Study support for every learning area in the AAT Accounting Qualification.

[Download your essential study support guide \(PDF\)](#)

Search by learning area for:

- Sample assessments
- E-learning modules
- Guidance and standards
- Green Light tests
- Learning area and assessment briefings.

Access your study support

Check your assessment results

Check to see your latest [assessment results](#).

The [time it takes for you to get your assessment results](#) will vary depending on the level you are taking.

Computer based projects (CBP)

All scheduled CBPs will be taken through [SecureAssess](#).

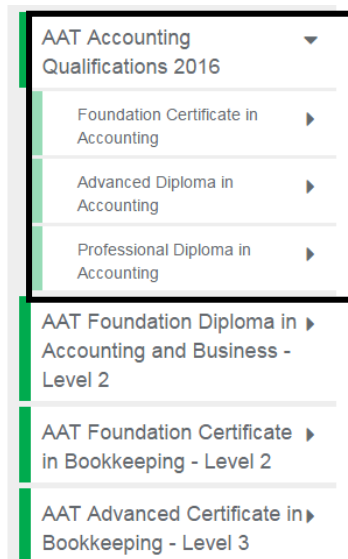

AAT Green Light tests

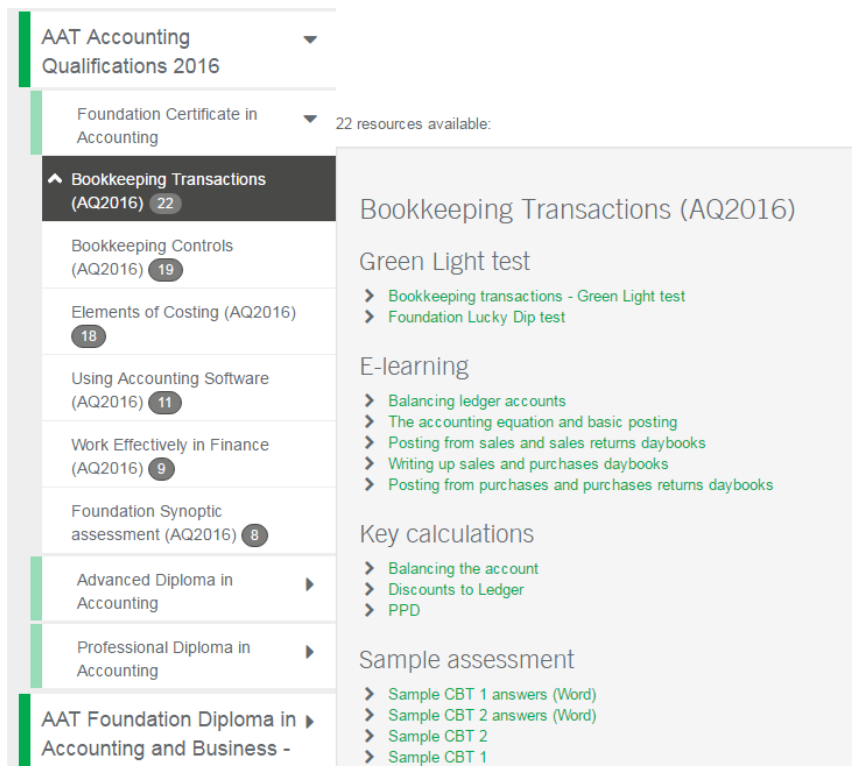

Take these short tests to check your knowledge and understanding.

➤ [Take AAT Green Light tests](#)

- On the left panel, click on *AAT Accounting Qualifications 2016*, followed by the level of qualification. Thereafter, you may select the module within the level.

- After you have selected the modules, you should be able to view the list of learning support.

If you have any clarification, please contact the Pathways Development and Qualifications team at 65975610 or email us at iscaaat@isca.org.sg.
