

# NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2018

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

## 1 CORPORATE INFORMATION

The Institute (UEN No. T04SS0109E) is the national organisation of the accountancy profession in Singapore. It was established in June 1963 as the Singapore Society of Accountants ("SSA") under the SSA Ordinance 1963, then reconstituted and renamed the Institute of Certified Public Accountants of Singapore ("ICPAS") on 11 February 1989 under the Accountants Act 1987. As of 31 March 2004, ICPAS was reconstituted as a society under the Societies Act. The restructuring is primarily a change of form for the Institute as ICPAS continued to be the national body for the accountancy profession in Singapore and its functions remain unchanged. In 2013, ICPAS was renamed as the Institute of Singapore Chartered Accountants ("ISCA"). The registered office and principal place of business of the Institute is located at 60 Cecil Street, ISCA House, Singapore 049709.

The principal activities of the Institute are those of administering the Institute's membership, catering for the training and professional development of its members. The principal activities of the subsidiaries are disclosed in Note 12.

The consolidated financial statements relate to the Institute and its subsidiaries (collectively, the "Group") and the Group's interest in associate.

## 2 SIGNIFICANT ACCOUNTING POLICIES

### a) Basis of preparation

The financial statements of the Group have been prepared in accordance with the Societies Act, Chapter 311 and Financial Reporting Standards in Singapore ("FRSs").

The financial statements, which are presented in Singapore dollar ("S\$"), have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with FRSs requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on Council's best knowledge of current events and actions and historical experiences and various other factors that are believed to be reasonable under the circumstances, actual results may ultimately differ from those estimates.

#### *Use of estimates and judgements*

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The areas involving a higher degree of judgement or complexity or areas where assumptions significant to the financial statements are disclosed in Note 3.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### a) Basis of preparation (cont'd)

#### *New and revised standards*

In the current financial year, the Group has adopted all the new and revised FRSs and Interpretations of FRSs ("INT FRSs") that are relevant to its operations and effective for the current financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective FRSs and INT FRSs.

The adoption of these new/revised FRSs and INT FRSs did not have any material effect on the financial results or position of the Group and the Institute, except as disclosed below:

#### **FRS 115 Revenue from Contracts with Customers**

FRS 115 replaces FRS 18 'Revenue', FRS 11 'Construction contracts' and other revenue related interpretations. It applies to all contracts with customers, except for leases, financial instruments, insurance contracts and certain guarantee contracts and non-monetary exchange contracts. FRS 115 provides a single, principle-based model to be applied to all contracts with customers. An entity recognises revenue in accordance with the core principle in FRS 115 by applying a 5-step approach.

Under FRS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. The entity is required to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model; to contracts with their customers. The standard also specifies the accounting and incremental costs of obtaining a contract and the cost directly related to fulfilling a contract.

The Group adopted FRS 115 using the modified retrospective approach without restating prior periods' information and recognises any difference between the previous carrying amount and the carrying amount at the beginning of the annual reporting period at the date of initial application in the accumulated fund as at 1 January 2018.

Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed as at this date. The Group has elected the practical expedient to apply the standard to contracts that are not completed at the date of initial application.

At the date of initial application and 31 December 2018, the Group has assessed that the adoption of FRS 115 does not have any material impact to the financial position and results of the Group and the Institute.

Upon adoption of FRS 115, the Group and the Institute have also changed the presentation of the accrued practice review fee receivable of \$238,800 as at 31 December 2018 as contract assets.

The adoption of FRS 115 did not have a material impact on other comprehensive income or the Group's operating, investing and financing cash flows.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### a) Basis of preparation (cont'd)

*New and revised standards (cont'd)*

#### **FRS 109 Financial Instruments**

FRS 109 replaces FRS 39 *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after 1 January 2018. It includes guidance on (i) the classification and measurement of financial assets and financial liabilities; (ii) impairment requirements for financial assets; and (iii) general hedge accounting. Financial assets are classified according to their contractual cash flow characteristics and the business model under which they are held. The impairment requirements in FRS 109 are based on an expected credit loss model and replace FRS 39 incurred loss model.

The Group and the Institute applied FRS 109 using a modified retrospective approach, with date of initial application on 1 January 2018. The Group and the Institute have not restated the comparative information, which continues to be reported under FRS 39.

#### (a) *Classification and measurement*

Under FRS 109, the Group and the Institute classify its financial assets based on entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The assessment of the Group's and the Institute's business model was made as of the date of initial application on 1 January 2018. The assessment of whether contractual cash flows on debt instruments solely comprised principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The following are the changes in classification and measurement arising from adopting FRS 109:

- Loans and receivables (including trade and other receivables (excluding prepayments) and cash and cash equivalents) as at 31 December 2017 are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are classified and measured as debt instruments at amortised cost beginning 1 January 2018; and
- Investment in quoted equity shares classified as available-for-sale ("AFS") financial asset as at 31 December 2017 are classified and measured at fair value through profit or loss beginning 1 January 2018.

The Group and the Institute have not designated any financial liabilities as at fair value through profit or loss. There are no changes in classification and measurement for the Group's financial liabilities.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### a) Basis of preparation (cont'd)

*New and revised standards (cont'd)*

#### **FRS 109 Financial Instruments (cont'd)**

##### (a) *Classification and measurement (cont'd)*

The following summarises the required or elected reclassifications as at 1 January 2018 upon adoption of FRS 109:

	Original carrying amount	FRS 109 measurement category	
	\$	FVTPL	Amortised cost
	\$	\$	\$
<b>Group</b>			
<b>FRS 39 measurement category</b>			
<i>Loans and receivables</i>			
Trade and other receivables	2,627,136	–	2,627,136
Cash and cash equivalents	63,243,758	–	63,243,758
<i>Available-for-sale financial assets</i>			
Quoted equity shares	290,921	290,921	–
<b>Institute</b>			
<b>FRS 39 measurement category</b>			
<i>Loans and receivables</i>			
Trade and other receivables	2,956,448	–	2,956,448
Cash and cash equivalents	60,940,819	–	60,940,819
<i>Available-for-sale financial assets</i>			
Quoted equity shares	290,921	290,921	–

##### (b) *Impairment*

FRS 109 requires the Group to record expected credit losses on all of its financial assets at amortised cost, either on a 12-month or lifetime basis. Management has assessed that there is no material impact of applying the new standard on the Group's financial statements.

At the date of initial application and 31 December 2018, the Group and the Institute have assessed that the adoption of FRS 109 does not have any material impact to the financial position and results of the Group and the Institute.

New standards, amendments to standards and interpretations that have been issued at the balance sheet date but are not yet effective for the financial year ended 31 December 2018 have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the financial statements of the Group and the Institute, except as follows:

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### a) Basis of preparation (cont'd)

*New and revised standards (cont'd)*

#### **FRS 116 Leases**

FRS 116 replaces the existing FRS 17: *Leases*. It reforms lessee accounting by introducing a single lessee accounting model. Lessees are required to recognise all leases on their statements of financial position to reflect their rights to use leased assets (a "right-of-use" asset) and the associated obligations for lease payments (a lease liability), within limited exemptions for short term leases (less than 12 months) and leases of low value items. In addition, the nature of expenses related to those leases will change as FRS 116 replaces straight-line operating lease expense with depreciation charge of right-of-use asset and interest expense on lease liability. The accounting for lessors will not change significantly.

The standard is effective for annual periods beginning on or after 1 January 2019. The standard will affect primarily the accounting for the Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of \$1,738,896 (Note 27(a)). These commitments relate to short term leases and leases of low value items which will be recognised on a straight-line basis as expense in profit or loss. As at year end, the Group has commenced negotiations for the renewal of the leased property that will be expiring in 2019. On completion of the negotiations and extension of the leased property, the Group will perform an assessment of the impact and adjustments on its financial statements on the application of FRS 116.

The Group does not expect any significant impact on the financial statements from its activities as a lessor.

### b) Basis of consolidation

*Subsidiaries*

Subsidiaries are entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the parent entity. Consistent accounting policies are applied for like transactions and events in similar circumstances.

Intragroup balances and transactions, including income, expenditure and dividends, are eliminated in full. Profits and losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### b) Basis of consolidation (cont'd)

Business combinations are accounted for using the acquisition method. The consideration transferred for the acquisition comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are recognised as expenditure as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

When a change in the Institute's ownership interest in a subsidiary results in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill, non-controlling interest and other components of equity related to the subsidiary are derecognised. Amounts recognised in other comprehensive income in respect of that entity are also reclassified to income and expenditure or transferred directly to accumulated fund if required by a specific FRS.

#### *Associate*

Associate is an entity in which the Group has significant influence, but not control, over their financial and operating policies of the entity. The Group's investment in associate is accounted for using the equity method of accounting, less impairment losses, if any. The consolidated financial statements include the Group's share of the profit or loss of the associate from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in the associate, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

#### *Accounting for subsidiaries and associate by the Institute*

In the Institute's separate financial statements, investments in subsidiaries and associate are stated at cost less impairment losses. On disposal of the investment, the difference between disposal proceeds and the carrying amounts of the investments are recognised in income or expenditure.

### c) Functional and foreign currencies

#### *Functional currency*

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which that entity operates ("the functional currency"). The financial statements of the Group and the Institute are presented in Singapore dollar, which is the Institute's functional currency.

#### *Foreign currencies*

Transactions in foreign currencies are translated into the functional currency using the exchange rate in effect at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into the functional currency at the rates ruling at that date. All exchange differences are taken to income or expenditure.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### d) Inventories

Inventories, comprising commemorative gold coins, notebooks, merchandise for E-store and pouches, are stated at the lower of cost and net realisable value. Cost is calculated using the first-in, first-out method.

### e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset and costs of bringing the asset to working condition for its intended use. Dismantlement, removal or restoration costs are included as part of the cost of asset if the obligation for dismantlement, removal or restoration costs is incurred as a consequence of acquiring or using the asset. Expenditure for additions, improvements and renewals are capitalised and expenditure for maintenance and repairs are charged to expenditure. The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in income or expenditure as incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in income or expenditure in the year the asset is derecognised.

Freehold land is not depreciated. Depreciation of other property, plant and equipment is calculated on the straight-line basis to write off the cost less residual value of the assets over their estimated useful lives as follows:

	Years
Furniture and office equipment	4 to 10
Computers	3 to 4
Renovation	3 to 12

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each financial year-end. The effects of any revision are recognised in income or expenditure when the changes arise.

### f) Investment properties

Investment properties, comprise freehold land and buildings of the Group and the Institute, that are leased out to earn rental. Investment properties are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. Depreciation of the buildings is calculated using the straight-line method to allocate the depreciable amounts over the estimated useful life of 50 years.

Transfers are made to or from investment property only when there is a change in use. When transfer is made between investment property and owner-occupied property, its carrying amount (cost less accumulated depreciation and impairment) at the date of transfer becomes its carrying amount for subsequent accounting.

On disposal of investment property, the difference between the disposal proceeds and the carrying amount is recognised in income or expenditure.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### g) Intangible assets

Acquired intellectual property and website development includes development costs which relate to the design and testing of new or improved learning materials which are recognised as an asset to the extent that it is expected that such assets will generate future economic benefits.

Deferred development costs are amortised from the date of the new or improved learning materials are put into use. Such costs are subsequently amortised on a straight-line basis over their useful lives of 3 years.

Computer software is stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is calculated using the straight-line method to allocate the cost of the computer software over their estimated useful lives of 3 to 5 years.

No amortisation is provided on system work-in-progress. Amortisation of the system, on the same basis as other intangible assets, commences when the asset is ready for its intended use.

The amortisation period and amortisation method of intangible assets are reviewed at least at each balance sheet date. The effects of any revision are recognised in income and expenditure when the changes arise.

### h) Impairment of non-financial assets

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised in expenditure if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs of disposal and its value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

Impairment losses recognised in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss has been recognised. Reversal of impairment loss is recorded in income or expenditure. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### i) Financial assets

The accounting policies for financial assets before 1 January 2018 are as follows:

#### **Classification**

The Group classifies its financial assets according to the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date.

#### *Available-for-sale financial assets*

Available-for-sale financial assets include equity and debt securities that are non-derivatives that are either designed in the category or not classified in any other category. They are included in non-current assets unless management intends to dispose of the assets within 12 months after the balance sheet date.

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except those maturing later than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are presented as "trade and other receivables" (excluding prepayments) and "cash and cash equivalents" on the balance sheet.

#### **Recognition and derecognition**

Regular purchases and sales of financial assets are recognised on trade-date – the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. On disposal of a financial asset, the difference between the net sale proceeds and its carrying amount is recognised in income or expenditure. Any amount in the fair value reserve relating to that asset is also transferred to income or expenditure.

#### **Initial measurement**

Financial assets are initially recognised at fair value plus transaction costs.

#### **Subsequent measurement**

Available-for-sale financial assets are subsequently carried at fair value.

Loans and receivables are carried at amortised cost using the effective interest method, less impairment.

Interest income on financial assets is recognised separately as income.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### i) Financial assets (cont'd)

The accounting policies for financial assets before 1 January 2018 are as follows (cont'd):

#### *Impairment*

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired.

#### *Loans and receivables*

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered objective evidence that the receivable is impaired.

The carrying amount of these assets is reduced through the use of an impairment loss recognised in income or expenditure. The impairment loss is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Subsequent recoveries of amounts previously written off are recognised against the same line item in income or expenditure.

If in subsequent periods, the impairment loss decreases, and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through income or expenditure to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date.

#### *Financial assets, available-for-sale*

In the case of an equity security classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an objective evidence that the security is impaired.

When there is objective evidence that an available-for-sale financial assets is impaired, the cumulative loss that was recognised directly in the fair value reserve is reclassified to income or expenditure. The cumulative loss is measured as the difference between the acquisition cost (net of any principal repayments and amortisation) and the current fair value, less any impairment loss on that financial asset previously recognised.

Impairment losses on debt instruments classified as available-for-sale financial assets are reversed through income or expenditure when the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised. However, impairment losses recognised in income or expenditure on equity instruments classified as available-for-sale financial assets are not reversed through income or expenditure.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### i) Financial assets (cont'd)

The accounting policies for financial assets from 1 January 2018 onwards are as follows:

#### **Recognition and derecognition**

Regular way purchases and sales of financial assets are recognised on trade date – the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss. Trade receivables without a significant financing component is initially measured at transaction prices.

#### **Classification and measurement**

All financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

The Group classifies its financial assets in the following measurement categories:

- Amortised cost; and
- Fair value through profit or loss ("FVTPL").

The classification is based on the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial assets.

The Group reclassifies financial assets when and only when its business model for managing those assets changes.

#### **Subsequent measurement**

##### i) Debt instruments

Debt instruments include trade and other receivables (excluding prepayments) and cash and cash equivalents. The subsequent measurement category is depending on the Group's business model for managing the asset and cash flow characteristics of the asset:

##### *Amortised cost*

The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### i) Financial assets (cont'd)

The accounting policies for financial assets from 1 January 2018 onwards are as follows (cont'd):

#### *Subsequent measurement (cont'd)*

#### i) *Debt instruments (cont'd)*

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. Interest income from these financial assets is included in interest income using the EIR method.

#### *Fair value through profit or loss ("FVTPL")*

Debt instruments that are held for trading as well as those that do not meet the criteria for classification as amortised cost or Fair value to other comprehensive income ("FVOCI") are classified as FVTPL. Movements in fair values and interest income are recognised in profit or loss in the period in which it arises and presented in "Other income".

#### ii) *Equity instruments*

The Group subsequently measures all its equity investments at their fair values. Equity investments are classified as FVTPL with movements in their fair values recognised in profit or loss in the period in which the changes arise and presented in "Other income or Expenses". On disposal of an equity investment classified as FVTPL, the difference between the carrying amount and sales proceed amount would be recognised in profit or loss. Dividends from equity investments are recognised in profit or loss and presented in "Other income".

#### iii) *Funds placed with funds managers*

The Group and the Institute classify a portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis as financial assets at fair value through profit or loss. Such portfolio of financial assets is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The collection of contractual cash flows is only incidental to achieving the business model's objective. The Group's and the Institute's primary focus on a portfolio of financial assets is on the fair value information and uses that information to assess the assets' performance and to make decisions.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### i) Financial assets (cont'd)

The accounting policies for financial assets from 1 January 2018 onwards are as follows (cont'd):

#### *Impairment*

The Group recognises an allowance for expected credit losses ("ECLs") for financial assets carried at amortised cost. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

The impairment methodology applied depends on whether there has been a significant increase in credit risk. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables that do not have a significant financing component, the Group applies a simplified approach to recognise a loss allowance based on lifetime ECLs at balance sheet date. The Group based on its historical credit loss experience, adjusts as appropriate for current conditions and forward-looking factors specific to the debtors and the economic environment.

If the Group has measured the loss allowance for a financial asset at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date.

The Group recognises an impairment gain or loss in income or expenditure for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

### j) Financial liabilities

Financial liabilities include trade and other payables (excluding accrual for unutilised annual leave). Financial liabilities are recognised on the balance sheet when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. Financial liabilities are initially recognised at fair value of consideration received less directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in income or expenditure when the liabilities are derecognised as well as through the amortisation process. The liabilities are derecognised when the obligation under the liability is discharged or cancelled or expired.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### k) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) where, as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of time value of money is material, the amount of the provision is the present value of the expenditure expected to be required to settle the obligation.

The Group recognises the estimated costs of dismantlement, removal or restoration of items of property, plant and equipment arising from the acquisition or use of assets (Note 2(e)). This provision is estimated based on the best estimate of the expenditure required to settle the obligation, taking into consideration time value of money.

### l) Operating leases

#### *Lessee*

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are taken to income or expenditure on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expenditure in the period in which termination takes place.

#### *Lessor*

Leases where the Group retains substantially all the risks and rewards of ownership of the asset are classified as operating leases. Rental income (net of any incentives given to lessees) is recognised on a straight-line basis over the lease term.

### m) Cash and cash equivalents in the statements of cash flows

For the purpose of presentation on the statements of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and excludes pledge deposits.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### n) Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the balance sheet and is amortised to income or expenditure over the expected useful life of the relevant asset by equal annual instalments.

When the grant relates to an expenditure item, it is recognised in income or expenditure over the period necessary to match them on a systematic basis to the costs that it is intended to compensate.

### o) Revenue recognition

These accounting policies are applied on and after the initial application date of FRS 115, 1 January 2018: Revenue is measured based on the consideration to which the Group and the Institute expect to be entitled in exchange for transferring promised goods or services to the customer.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

#### (i) *Members' annual fees and Member's admission fees*

The Institute is the national accountancy professional body and provides membership services to its members. Such members' annual fees are recognised as a performance obligation satisfied over time. Member's annual fee is recognised as income in the period to which the annual fees relates. Unearned income relating to future period is included in contract liabilities. The members' annual fee is non-refundable and payable upon membership renewal.

The Group provides members administrative services in the application of membership status. The admission fees are due upon submission of membership application and non-refundable. The admission fees are recognised as income upon processing of the membership application.

#### (ii) *Services*

- Course fees (from continuing professional education, training and seminars), subscription fees and management fees

The Group provides its members training courses relating to the continuing professional education for its members. Such services are recognised as a performance obligation satisfied over time. Income from course fees, subscription fees and management fees are recognised as a performance obligation satisfied over time and are recognised over the duration of the programmes and in the period during which service is provided, having regards to the stage of completion of the service. Unearned income relating to service to be rendered in future periods is included in contract liabilities. Subscription fees are recognised as income in the year to which the subscription relates. Unearned income relating to future year is included in contract liabilities. The above fees are due upon registration, and non-refundable.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### o) Revenue recognition (cont'd)

#### (ii) Services (cont'd)

- Administrative fee income

Administrative fee income from the administration of Singapore CA Qualification ("CA Qualification") is recognised net of expenditure incurred. The net amount of the income recognised is derived based on a pre-determined fixed percentage of the pre-approved expenditure incurred for the CA Qualification. The Group will bill customer in accordance to the billing terms in the service agreement and are required to pay within 30 days from the invoice date.

- Practice monitoring review income

The Institute provides inspection services on audits performed by public accountants, and such services are recognised as a performance obligation satisfied over time. The services performed by the Institute has no alternative use due to the contractual restriction and the Institute has enforceable rights to payment arising from the contractual terms. Revenue is recognised over the duration of the service and in the period during which service is provided, having regards to the stage of completion determined based on man hours incurred to date over the budgeted man hours. A contract asset is recognised when the Institute has performed under the contract but has not yet billed the client. The Institute will bill client in accordance to the billing terms in the service agreement and are required to pay within 30 days from the invoice date. No element of financing is deemed present.

#### (iii) Interest income

Interest income is recognised as the interest accrues based on effective interest method.

#### (iv) Rental income

Rental income from operating leases are recognised on a straight-line basis over the lease term. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

### p) Employee benefits

#### *Defined contribution plans*

As required by law, the Group makes contributions to the state pension scheme, the Central Provident Fund ("CPF") Scheme which is a defined contribution pension scheme. Contributions to CPF are recognised as expenditure in the period in which the related service is performed.

#### *Employee leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. The estimated liability for leave is recognised for services rendered by employees up to the balance sheet date.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

### q) Discontinued operation

A component of the Group is classified as "discontinued operation" when the criteria to be classified as held for sale have been met or it has been disposed of and such a component represents a separate major line of business or geographical area of operations or is part of a single coordinated plan to dispose of a separate major line of business or geographical area or operations.

In the statement of profit or loss and other comprehensive income of the current financial, and of the comparative period, all income and expenses from discontinued operation are reported separately from income and expenses from continuing operations, down to the level of surplus after tax. The resulting net gain or loss is reported separately in income or expenditure.

### r) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to items recognised outside profit or loss, either in other comprehensive income or directly in equity in which the tax is also recognised outside profit or loss (either in other comprehensive income or directly in equity respectively).

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised, using the liability method, providing for all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is not recognised for the initial recognition of assets or liabilities that affect neither accounting nor taxable profit.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Deferred tax assets are reviewed at each balance sheet date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

### Critical judgements in applying the entity's accounting policies

In the process of applying the Group's accounting policies, which are described in Note 2, management has made the following judgements that have the most significant effect on the amounts recognised in the financial statements (apart from those involving estimations, which are dealt in the preceding paragraphs).

#### *Business model assessment*

Classification and measurement of financial assets depends on the cashflows that are solely payments of principal and interest ("SPPI") and the results of the business model test (refer to Note 2). The Group and the Institute determine the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated.

The Group and the Institute classify a portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis as financial assets at fair value through profit or loss. Such portfolio of financial assets is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The collection of contractual cash flows is only incidental to achieving the business model's objective. The Group's and the Institute's primary focus on a portfolio of financial assets is on the fair value information and uses that information to assess the assets' performance and to make decisions.

The Group and the Institute monitor financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reasons for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Financial assets are not reclassified subsequent to their initial recognition unless the Group and the Institute change its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

### Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

#### *Income taxes*

The Group and the Institute recognise liabilities for expected tax issues based on reasonable estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. The carrying amounts of the Group's income tax payables and deferred tax liabilities at the balance sheet date was \$115,007 (2017: \$1,346) and \$63,000 (2017: deferred tax assets of \$193,000), respectively. The carrying amounts of the Institute's income tax payable and deferred tax liabilities at the balance sheet date was \$111,000 (2017: \$Nil) and \$63,000 (2017: deferred tax assets of \$193,000), respectively.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONT'D)

### Key sources of estimation uncertainty (cont'd)

#### *Depreciation of property, plant and equipment and investment properties*

The cost of property, plant and equipment and investment properties are depreciated on a straight-line basis over their respective useful lives. Management estimates the useful lives of these property, plant and equipment and investment properties to be within 3 to 50 years. The estimation of the useful lives and residual amount involves assumptions concerning the future and estimations of the assets common life expectancies and expected level of usage. Any changes in the expected useful lives of these assets would affect the net carrying amounts of property, plant and equipment and investment properties, and the depreciation charges for the financial year.

The carrying amounts of the Group's and the Institute's property, plant and equipment and investment properties as at 31 December 2018 and the annual depreciation charges for the financial year ended 31 December 2018 are disclosed in Notes 10 and 11 respectively.

#### *Amortisation of intangible assets*

The Group and the Institute review the useful lives of intangible assets at the balance sheet date in accordance with the accounting policy in Note 2(g). Changes in circumstances, such as technological or other types of obsolescence, could result in the actual useful lives differing from the management's current estimates. The net carrying amount of intangible assets at 31 December 2018 and the annual amortisation charge for the financial year ended 31 December 2018 are disclosed in Note 15. Any changes in the expected useful lives of these assets would affect the net carrying amount of intangible assets, and the amortisation charge for the financial year.

#### *Calculation of loss allowance*

When measuring ECL, the Group and the Institute use reasonable and supportable forward-looking information, which is based on assumptions and forecasts of future economic conditions. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

As the calculation of loss allowance on trade receivables is subject to assumptions and forecasts, any changes to these estimations will affect the amounts of loss allowance recognised and the carrying amounts of trade receivables. Details of ECL measurement and carrying value of trade receivables at reporting date are disclosed in Note 28.

#### *Impairment of non-current assets*

Management assesses whether there are any indicators of impairment for all non-current assets at each balance sheet date. Non-current assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONT'D)

### Key sources of estimation uncertainty (cont'd)

#### *Impairment of non-current assets (cont'd)*

When value in use calculations are undertaken, management is required to estimate the expected future cash flows from the asset or cash-generating unit and a suitable discount rate, in order to determine the present value of those cash flows.

The carrying amounts of the Group's and Institute's property, plant and equipment, investment properties and intangible assets are disclosed in Notes 10, 11 and 15 respectively.

\* Tax incentive for the Group and the Institute in the previous financial year mainly arose from the Productivity and Innovation Credit scheme.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 8 INCOME TAX EXPENSE (CONT'D)

At the balance sheet date, the Group and the Institute have unabsorbed capital allowances of \$Nil (2017: \$1,684,000). These are available for carry forward to offset against future taxable income, subject to the agreement of the tax authority and compliance with the relevant provisions of the Income Tax Act. The Group and Institute have recognised deferred tax assets amounting to \$Nil (2017: \$50,000). These assets have been recognised on the basis that there are sufficient estimated future taxable profits and taxable temporary differences against which the tax benefits can be utilised, based on the management projection of surplus from operations.

## 9 DISCONTINUED OPERATION

In 2017, the Group completed the disposal of SAA Global Education Centre Pte. Ltd. ("SAA GE"), a wholly-owned subsidiary of the Company to Malvern International Plc ("Malvern") for a total consideration of \$290,921, which was satisfied through the issue of 5,630,350 new ordinary shares in Malvern. A surplus of \$15,552 arising from the sales of the discontinued operation and a loss on disposal of subsidiary of \$338,099 have been recognised in the income or expenditure of the Group and Institute respectively.

In accordance with Financial Reporting Standard 105 "Non-current Assets Held for Sale and Discontinued Operations", the results and cash flows for the Institute and Group for the previous financial year were presented separately as continuing operations and discontinued operation following the sale of SAA GE.

(a) An analysis of the results of discontinued operation is as follows:

	<b>Group</b> 2017 \$
<b>Income for the year</b>	
Income from other training courses	3,412,081
Other income	<u>169,838</u>
Total income	<u>3,581,919</u>
<b>Less expenditure</b>	
Expenses	<u>4,317,383</u>
Deficit before tax from discontinued operation	(735,464)
Income tax expense	<u>—</u>
<b>Deficit after tax from discontinued operation</b>	(735,464)
Gain on disposal of discontinued operation (Note 12)	<u>751,016</u>
<b>Surplus from discontinued operation, net of tax</b>	<u>15,552</u>

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

## 19 CONTRACT ASSETS

Contract assets relate to the Group's and the Institute's rights to consideration for work completed but not billed at the reporting date on the Group's and the Institute's practice monitoring review services.

Judgements are used to estimate the man hours to complete. In making these estimates, management has relied on past experience of completed projects. The estimated total contract costs is reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

The following table provides information about contract assets from contracts with customers:

	Group		Institute	
	2018 \$	1.1.2018 \$	2018 \$	1.1.2018 \$
Contract assets	<b>238,800</b>	369,000*	<b>238,800</b>	369,000*

\* The amount is presented under trade and other receivables (Note 21) as at 31 December 2017.

There were no significant changes in the contract asset balances during the financial year.

## 20 CONTRACT LIABILITIES

Contract liabilities comprise course fees and subscription fees advance consideration received from participants and/or members for courses or events organised by the Group or the Institute and members annual fee, respectively. Contract liabilities are recognised as revenue as (or when) the Group and the Institute satisfy the performance obligations under its contracts.

The following table provides information about contract liabilities from contracts with customers:

	Group		Institute	
	2018 \$	1.1.2018 \$	2018 \$	1.1.2018 \$
Contract liabilities	<b>3,475,884</b>	3,755,329*	<b>3,472,269</b>	3,752,182*

\* As at 31 December 2017, the amount is presented as course fees received in advance amounting to \$566,732 and \$564,772 and subscription fees received in advance amounting to \$3,188,597 and \$3,187,410, respectively on the Group's and the Institute's balance sheet.

There were no significant changes in the contract liability balances during the financial year.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

– associate	16,622	16,445	16,622	16,445
	<b>1,550,466</b>	<b>1,657,000</b>	<b>1,799,199</b>	<b>1,907,184</b>
Non-trade amount due from a subsidiary	–	–	95,591	90,347
Accrued practice monitoring review fee receivable	–	369,000	–	369,000
Deposits	489,228	488,838	489,228	488,838
Interest receivables	31,727	101,037	25,742	94,819
Prepayments	572,898	410,706	532,743	382,741
Recoverable administrative costs	653,796	–	653,796	–
Others	313,309	11,261	303,138	6,260
	<b>3,611,424</b>	<b>3,037,842</b>	<b>3,899,437</b>	<b>3,339,189</b>

Non-trade amount due from a subsidiary is unsecured, interest-free and repayable on demand.

## 22 CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash, bank deposits and bank balances.

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Interest bearing accounts	13,234,276	61,217,368	11,560,736	59,633,132
Non-interest bearing accounts	2,499,789	2,026,390	1,746,984	1,307,687
	<b>15,734,065</b>	<b>63,243,758</b>	<b>13,307,720</b>	<b>60,940,819</b>
Less: Fixed deposits pledged	(66,070)	(58,035)	(66,070)	(58,035)
Cash and cash equivalents per Statements of Cash Flows	<b>15,667,995</b>	<b>63,185,723</b>	<b>13,241,650</b>	<b>60,882,784</b>

Included in interest bearing accounts of the Group and Institute are fixed deposits amounting to \$11,975,830 (2017: \$58,803,857) and \$10,376,465 (2017: \$57,619,116) respectively which are placed for varying periods between 1 to 18 months (2017: 1 to 18 months) depending on the immediate cash requirements of the Group and the Institute, and earn interest of 0.25% to 1.90% (2017: 0.25% to 1.30%) per annum. Fixed deposits of the Group and Institute amounting to \$66,070 (2017: \$58,035) are pledged to bank for banking facilities.

Included in interest bearing accounts of the Group is the bank balance of ISCA Cares Fund amounting to \$552,603 (2017: \$442,860), of which \$26,553 (2017: \$43,416) is held in the bank balance of the Institute.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 23 PROVISIONS

Provisions for dismantlement, removal and restoration costs have been recognised as a consequence of lease arrangement entered into for its office and training premises.

Movements in provisions are as follows:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
At beginning of year	318,509	490,377	318,509	314,577
Unwind of discount	3,981	3,932	3,981	3,932
Disposal of a subsidiary	–	(175,800)	–	–
At end of year	<b>322,490</b>	318,509	<b>322,490</b>	318,509

The provisions represent the present value of management's best estimate of the future outflow of economic benefits that will be required to reinstate leased property to its original state. The estimates have been made on the basis of quotes obtained from external contractors. The unexpired term of the lease including the renewal options range is 7 years (2017: 8 years).

## 24 TRADE AND OTHER PAYABLES

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Trade payables	910,845	3,800,422	897,275	3,799,864
Amount due to a subsidiary	–	–	29,124	45,987
Accrued operating expenses	2,788,028	3,116,957	2,677,672	2,939,874
Accrual for unutilised annual leave	515,464	530,863	501,344	513,259

	<b>1,923,364</b>	<b>2,003,128</b>	<b>1,923,364</b>	<b>2,003,128</b>

## 27 COMMITMENTS

- (a) Lease commitments – where the Group is a lessee

The Group and the Institute lease properties and office equipment from non-related parties under non-cancellable operating lease agreements. These leases have an average tenure of between one to six years, varying terms, escalation clauses and renewal options.

The future minimum lease payments under non-cancellable operating leases contracted for at balance sheet date, but not recognised as liabilities, are as follows:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Within one year	1,595,816	2,022,836	1,595,816	2,022,836
After one year but within five years	143,080	1,641,176	143,080	1,641,176

## 27 COMMITMENTS (CONT'D)

- (b) Lease commitments – where the Group is a lessor

The Group leases out office premises to non-related parties, while the Institute leases out office premises to subsidiaries and non-related parties, all of which are under non-cancellable operating leases.

The future minimum lease receivables under non-cancellable operating leases contracted for at the balance sheet date but not recognised as receivables, are as follows:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Within one year	957,120	163,764	957,120	163,764
After one year but within five years	3,844,925	–	3,844,925	–
Above five years	180,939	–	180,939	–

- (c) Capital commitment

Capital commitment not provided for in the financial statements:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Capital commitment in respect of intangible assets	18,900	18,900	–	–

- (d) Other commitment – Institute

As at 31 December 2018, the Institute has provided continuing financial support of \$9,457 (2017: \$Nil) to a subsidiary in net liability position.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS

### (a) Categories of financial instruments

Financial instruments at their carrying amounts as of the balance sheet date are as follows:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
<i>Financial assets</i>				
Available-for-sale financial assets	–	290,921	–	290,921
Loans and receivables (including cash and cash equivalents)	–	65,870,894	–	63,897,267
Financial assets at fair value through profit or loss	<b>47,115,304</b>	–	<b>47,115,304</b>	–
Financial assets at amortised costs	<b>18,772,591</b>	–	<b>16,674,414</b>	–
	<b>65,887,895</b>	66,161,815	<b>63,789,718</b>	64,188,188
<i>Financial liabilities</i>				
At amortised cost	<b>3,938,153</b>	7,139,951	<b>3,843,351</b>	7,008,297

### (b) Financial risk management

The main risks arising from the Group's financial management are interest rate risk, credit risk, liquidity risk, price risk and foreign currency risk. The Group reviews and agrees policies for managing each of these risks and they are summarised below:

#### **Credit risk**

The Group's and the Institute's exposure to credit risk arises from the failure of a customer or a counterparty to settle its financial and contractual obligations to the Group, as and when they fall due. The Group manages this risk by monitoring credit periods and limiting the aggregate financial exposure to any individual counterparty.

The Group and the Institute place cash and fixed deposits with the established banks and financial institutions in Singapore.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### *Credit risk (cont'd)*

The following sets out the Group's internal credit evaluation practices and basis for recognition and measurement of expected credit losses (ECL):

<u>Description of evaluation of financial assets</u>	<u>Basis for recognition and measurement of ECL</u>
Counterparty has a low risk of default and does not have any past due amounts	12-month ECL
Contractual payments are more than 30 days past due or where there has been a significant increase in credit risk since initial recognition	Lifetime ECL – not credit-impaired
Contractual payments are more than 1 year past due or there is evidence of credit impairment	Lifetime ECL – credit-impaired
There is evidence indicating that the Group has no reasonable expectation of recovery of payments such as when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, cannot be located or are not recoverable despite legal recourse made to recover the debt, and reminders and warning letters issued for debts due for more than 12 months.	Write-off

#### *Significant increase in credit risk*

In assessing whether the credit risk on a financial asset has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial asset as at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information, such as future economic and industry outlook that is available without undue cost or effort.

In particular, the Group considers the following information when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost; and
- an actual or expected significant deterioration in the operating results/key financial performance ratios of the debtor.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### *Credit risk (cont'd)*

##### *Significant increase in credit risk (cont'd)*

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

The Group also assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the reporting date.

##### *Definition of default*

The Group considers an event of default for internal credit risk management purpose. Management considers that default has occurred when a financial asset is more than 1 year past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

##### *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred such as evidence that the borrower is in significant financial difficulty, there is a breach of contract such as default or past due event; there is information that it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for that financial asset because of financial difficulties; or the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

##### *Estimation techniques and significant assumptions*

There has been no change in the estimation techniques or significant assumptions made during the current financial year for recognition and measurement of credit loss allowances.

##### *Trade receivables and contract assets*

The Group has applied the simplified approach to measure the lifetime expected credit loss allowance for trade receivables and contract assets.

The contract assets relate to unbilled work-in-progress, which have substantially the same risk characteristics as the trade receivables for the same type of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets. Trade receivables and contract assets that shared the same credit risk characteristics and days past due are grouped together in measuring the expected credit losses.

The Group estimates the expected credit loss rates for each category of past due status of the debtors based on historical credit loss experience adjusted as appropriate to reflect current conditions and forecasts of future economic conditions.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### *Credit risk (cont'd)*

##### *Trade receivables and contract assets (cont'd)*

There has been no change in the estimation techniques or significant assumptions made during the current financial year.

A trade receivable is written off when there is information indicating that there is no realistic prospect of recovery from the debtor such as when the debtor has been placed under liquidation, has entered into bankruptcy proceedings, cannot be located or are not recoverable despite legal recourse made to recover the debt, including reminders and warning letters issued for debts due for more than 12 months.

The Group and the Institute assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, and concluded that there has been no significant increase in the credit risk since the initial recognition of the financial assets. Accordingly, the Group and the Institute measured the impairment loss allowance using 12-month ECL and determined that the ECL is insignificant.

##### *Other financial assets at amortised cost*

Other financial assets at amortised costs include other receivables and cash and cash equivalents.

Credit risk exposure in relation to other financial assets at amortised costs as at 31 December 2018 is insignificant, and accordingly no credit loss allowance is recognised as at 31 December 2018.

#### **Previous accounting policy for impairment of financial assets**

##### *Financial assets that are neither past due nor impaired*

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit-ratings assigned by international credit-rating agencies. Trade receivables that are neither past due nor impaired are substantially companies and individuals with a good collection track record.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### Credit risk (cont'd)

#### Previous accounting policy for impairment of financial assets (cont'd)

#### Financial assets that are past due but not impaired

There is no other class of financial assets that is past due and/or impaired except for trade receivables.

The age analysis of trade receivables past due but not impaired is as follows:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
Past due 0 to 3 months	952,241	555,743	947,296	587,812
Past due 3 to 6 months	97,373	109,627	97,075	109,627
Past due over 6 months	46,469	89,071	43,898	89,071
	<b>1,096,083</b>	<b>754,441</b>	<b>1,088,269</b>	<b>786,510</b>

#### Financial assets that are past due and impaired

There are no trade and other receivables that are impaired either individually or collectively as at the end of each reporting period.

#### Movement in allowance for doubtful receivables:

	Group		Institute	
	2018 \$	2017 \$	2018 \$	2017 \$
At beginning of year	-	74,323	-	584,420
Write-back	-	(74,323)	-	(74,323)
Write-off	-	-	-	(510,097)
At end of year	-	-	-	-

In 2017, trade receivables that are individually determined to be impaired at the balance sheet date were related to a debtor that has defaulted on payments and a subsidiary that is in net liability position. Trade receivables are not secured by any collateral or credit enhancements.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### *Liquidity risk*

In the management of liquidity risk, the Group and the Institute monitor and maintain a level of cash and bank balances deemed adequate by the Management to finance the Group and the Institute operations and mitigate the effects of fluctuations in cash flows.

The financial liabilities of the Group and the Institute are due within twelve months from the balance sheet date and approximate the contractual undiscounted repayment obligations.

The table below details the liquidity analysis for the Group's and the Institute's derivative financial instruments. The amounts disclosed in the table below are the contractual undiscounted gross cash flows on derivatives that require gross settlement.

	<b>Group and Institute</b>	
	Less than 1 year	
	<b>2018</b>	2017
	\$	\$
Gross-settled foreign exchange forward contracts		
– Gross inflow	–	238,000
– Gross outflow	–	(240,054)

#### *Interest rate risk*

The Group and the Institute are exposed to interest rate risk through the impact of rate changes on interest bearing fixed deposits. The sensitivity analysis for changes in interest rate is not disclosed as the effect on income or expenditure is considered not significant.

#### *Price risk*

Market price risk is the risk that the fair value or future cash flows of the Group's and the Institute's financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates). The Group and the Institute are exposed to equity price risk arising from its investment in quoted equity instruments. These instruments are quoted on the London Stock Exchange and are classified as financial assets at fair value through profit or loss. To manage price risk arising from investment in quoted equity instruments, the Group and the Institute diversify its portfolio in accordance with the limits set by the Group.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 28 FINANCIAL INSTRUMENTS (CONT'D)

### (b) Financial risk management (cont'd)

#### *Price risk (cont'd)*

##### Sensitivity analysis

The sensitivity analysis for price risk is not disclosed if prices for equity securities change by 2% with all other variables being constant, as the effect on profit or loss is considered insignificant.

Funds placed with fund managers comprise a portfolio of equity instruments, debt instruments, derivatives and cash and cash equivalents. The Group and the Institute are exposed to changes in market prices, interest rate risk and foreign exchange risk with respect to its funds placed with fund managers. Fair values of debt instruments at fixed rates may fluctuate due to changes in market interest rates. A 2% increase/(decrease) in the fair value of the portfolio at the balance sheet date would increase/(decrease) the Group's and the Institute's profit or loss by \$937,496 (2017: \$Nil).

#### *Foreign currency risk*

The Group's and the Institute's foreign currency risk results mainly from cash flows and transactions denominated in foreign currencies. It is the Group's and the Institute's policy not to enter into derivative forward foreign exchange contracts for speculative purposes except for the use as hedging instruments where appropriate and cost-efficient. The Group does not apply hedge accounting.

The Group and the Institute have no significant financial assets and liabilities held in foreign currency.

## 29 FAIR VALUE OF ASSETS AND LIABILITIES

### (a) Fair value hierarchy

The tables below analyse the fair value measurements by the levels in the fair value hierarchy based on the inputs to the valuation techniques. The different levels are defined as follows:

- a) Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- b) Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (i.e. derived from prices); and
- c) Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 29 FAIR VALUE OF ASSETS AND LIABILITIES (CONT'D)

### (b) Fair value measurement of assets that are measured at fair value

The following table presents the assets measured at fair value at 31 December 2018.

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<b>Recurring fair value measurement</b>				
<b>2018</b>				
<b>Group and Institute</b>				
Financial assets at fair value through profit or loss				
– Quoted investment	240,505	–	–	240,505
– Funds placed with fund managers	–	46,874,799	–	46,874,799
<b>2017</b>				
<b>Group and Institute</b>				
Available-for-sale financial assets				
– Quoted investment	290,921	–	–	290,921

### (c) Assets and liabilities not carried at fair value but which fair values are disclosed

	Carrying amount \$	Fair value measurement at balance sheet date		
		Level 1 \$	Level 2 \$	Level 3 \$
<b>2018</b>				
<b>Group and Institute</b>				
Investment property	11,392,109	–	–	28,000,000
<b>2017</b>				
<b>Group and Institute</b>				
Investment property	11,694,555	–	–	27,300,000

The above does not include financial assets and financial liabilities whose carrying amounts are measured on the amortised cost basis. The carrying amounts of these financial assets and financial liabilities approximate their fair values due to their short-term nature.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 29 FAIR VALUE OF ASSETS AND LIABILITIES (CONT'D)

### (d) Determination of fair values

Fair values have been determined for measurement and/or disclosure purpose based on the following methods:

#### *Quoted equity security*

The fair value of quoted equity investments is based on quoted market prices at the balance sheet date. The instrument is included in Level 1.

#### *Funds placed with fund managers*

The fair values of funds placed with fund managers are determined based on market prices provided by financial institutions at the balance sheet date. These instruments are included in Level 2.

#### *Investment property*

The fair value is determined based on the property's highest and best use by an external and independent professional valuer using the Direct Comparison Approach, under which the properties are assessed having regards to the recent transactions within the development and around the vicinity. Appropriate adjustments have been made between comparables and the subject property to reflect the differences in size, tenure, location, condition, prevailing marketing and all other factors affecting their value. The fair value measurement is categorised under Level 3 of the fair value hierarchy.

## 30 FUND MANAGEMENT

The Group's and the Institute's objectives when managing the accumulated fund and ISCA Cares Fund are to safeguard the Group's and the Institute's ability to maintain adequate working capital, to promote its objective to lead, develop and support accountancy professionals in Singapore and uphold the public interest and these objectives remain unchanged from previous year.

# NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

For the financial year ended 31 December 2018

## 31 COMPARATIVES

Prior year reclassification has been made to reclassify goods and services tax on disposal of investment property from operating activities to investing activities to better reflect the nature of the transaction.
